The Week Recap

This past week we participated in our first Tutorial of the school year. Students did a great job getting to their learning spaces, finding a backup space in the event that their space was full, and staying on task for the duration of the period. A reminder to all families that the bell for Tutorial Fridays rings at the regular 8:10am time. Students will move to their Tutorial block at 9:15am. Tutorial time is valuable learning time where students have the opportunity to make up tests or missing assignments, get extra support to get ahead, or work on a passion project. Going forward, unless it's a designated SLO day, every Friday will be a Tutorial day. Check the MySchoolDay app for the block orders.

Attendance

Administrators and counsellors have looked through attendance for the month of September and have identified students with an extraordinary high amount of absences. In some cases, letters will be sent home for those students and many will be provided an attendance card for a two-week period.
